UPPER LAKE Trout Plant: 06/15/2009 1500 LBS

FOR MORE INFORMATION PLEASE CONTACT THE MARINA AT
661-775-6232

Striper fishing is doing very well this week along with the large mouth and the catfish. Stripers are still chasing the shad all over the lake but fishermen are doing the best in the fish arm. Most of the stripers that are being caught are bigger then they have been in the past few weeks, most ranging from 2 to 9 pounds. Shad and shad imitations and doing the best but some small trout lures are starting to work. The largemouth are biting on the shad and shad imitations in the backs of the coves and off of the points in the fish arm. Recently the catfish at both the upper and the lower lakes have been doing very well, lots of 3 to 7 pounders being caught on a wide variety of baits. The trout bite at the lower lake is doing excellent and the largemouth reacted well to the plant and the lagoon is on the board for a trout plant on the week of Nov. 1st 2009. The upper lake has still not received trout nor is it on the schedule for a stock this week.

Whopper of the Week

ANGLER NAME: Danny Schlesinger DATE: 10/25/09
HOME TOWN: Canyon Country SPECIES: Cat Fish
WIEGHT OF STRINGER: 15.2 NUMBER CAUGHT: 1 WEIGHT OF LARGEST FISH: 15.2
BAIT/ LURE USED: Chicken Catmando LOCATION CAUGHT: Lower Lake
COMMENTS:
