No trout again this week from Department of Fish and Game. It is unknown as to when we will receive another plant. Striper have been finicky as usual but some have been taken on smaller swim baits, spoons and cut bait. Most striper caught have averaged in the 3- 5 pound range with reports of a few double digit fish taken within an hour after the lake opening. LMB have made a stronger show in the mornings with a fair to good bite on plastics of various colors and sizes according to reports from both boaters and shore pounders. Average LMB has been consistent with a 1.5 to 2.5 # range. A few over the 3 pound mark have been reported from reliable sources. Not much to report on the lower lake as information has yet to trickle up here, but the few reports have revealed more of the same of 1.5 to 2.5 pound LMB have been caught also on plastics.
