The department of fish and game stocked the upper lake on Tuesday May 26<sup>th</sup> with rainbow trout and the lower lagoon was stocked on Monday June 15<sup>th</sup> with rainbow trout as well. Not much has changed in the past week if anything it just keeps getting better. The shad are just still not up yet but they are showing, still to deep to net. The large mouth bass are boiling at the main ramp mid morning to afternoon between the docks, some boils lasting up to 2 minutes. Still a big plastic bite and night crawler bite for the bass. Stripers are still schooled up at the fore bay buoy line and people are still catching 1 to 3 pounders on small bits of anchovies and sardines as well are 1/8oz kastmasters any color. The shore fishing for stripers from the main dam has slowed down a little. Were not seeing as many numbers as we have seen in the past few weeks but the ones that are still being caught, are being caught on swimbaits, trout lures, plugs and cut bait. The last moonlight fishing which was on June 13<sup>th</sup> did pretty well. People were catching stripers to the right of the ramp around the corner. The large mouth bite was quite good as well. The next moonlight fishing will take place on Saturday July 11<sup>th</sup> at 8:00 Pm. The Lower lagoon fishing is doing very well. Lots of largemouth being caught, most under 12 inches. Small crankbaits, roboworms and night crawlers have been doing really well near the fishing pier and the spillway. The next moonlight float-tube tournament will take place at the lagoon on July 10<sup>th</sup> from 6 Pm till midnight.
