6/02/2009 LAGOON, UNDISCLOSED AMOUNT

FOR MORE INFORMATION PLEASE CONTACT THE MARINA AT
661-775-6232

The department of fish and game stocked the upper lake on Tuesday May 26th with rainbow trout and the lower lagoon was stocked on Tuesday June 2nd with rainbow trout as well. Both the upper and lower lakes are responding very well to the post spawn and the recent weather we have been having. The lower lake is producing a lot of Large Mouth Bass, Crappie, Blue Gill and Trout. Night crawlers seem to be working best for all of the fish at the lagoon. The upper lake is still producing a lot of small stripers at the fore bay buoy line on small bits of anchovies and sardines. More medium sized stripers (3 - 7 Lbs) are being caught on the Main Dam on anchovies, sardines, and night crawlers. The bigger stripers are still being pulled in on trout swimbaits and plugs along the shoreline to the right of the marina and off the dam. The trolling bite has picked up quite a bit in the fish arm on the west side near Sharon's Rest. The large mouth bass are doing very well in the backs of the coves and on the points of the coves. Night crawlers, plastics and small shad-like crank baits are doing well to reel in the bass (typically 1 1/2 - 3 lbs). Trout have become very scarce at and around the marina.

BIG FISH OF THE WEEK
