

Castaic Lake

FISHING REPORT

WEEK ENDING 11/13/2010

WATER TEMP: Mid to High 60's

LOWER LAKE Trout Plant: 01/12/2010

UPPER LAKE Main Ramp 1500 lbs: 11/09/2010

With a trout plant on Tuesday we were hoping for some striper action but it just never happened. The Stripers still haven't come out of their hibernation yet but people all along the shoreline are still catching trout. A few largies have been caught on swimbaits around the marina and the cove to the right of the marina. Down the dam near the tower a few stripers have been caught off of bait and just a couple off swimbaits. As far as striper fishing out on the lake goes you have about as good of a chance from the shore as you do on the water. Largies are still bustin all over the lake and are not being as picky as they have been in the past few weeks. Swimbaits worms and shad imitations are working better in the morning but the mid afternoon bite is doing pretty good. The fish arm is definitely more productive but it is mainly largies with maybe a few stripers. Fishing at the lagoon has been doing ok but with no trout still those largies are getting pretty hungry.

WHOPPER OF THE WEEK!

ANGLER NAME: Chris Salkeld

DATE: 11-01-10

HOME TOWN: Castaic

SPECIES: Large Mouth Bass

WIEGHT OF STRINGER: 4.5

NUMBER CAUGHT: 1 WEIGHT OF LARGEST FISH: 4.5

BAIT/ LURE USED: BBZ 6' Trout

LOCATION CAUGHT: Marina
